

COMPRESSED AIR SILENCERS

CAS001 FB

The CAS001 FB Compressed Air Silencer is used in refuge chambers to reduce noise to an acceptable level – 90dB @ 3.5-5.0 bar.

CAS002 RB

The CAS002 RB Silencer is fitted to the S36 drop raise drill to reduce noise to an acceptable level below 110dB – whilst not compromising on performance.

CAS003 LP

The CAS003 Silencer is used to reduce noise to below 90dB on low pressure installations – i.e. 1.5 – 2.5 bar.
